Durham Amateur Pinball League

LED KITS **\$34.95**

COMES IN BLACK, BLUE, RED, GREEN AND WHITE

CUP HOLDERS

COMES IN BLACK

\$14.95

Led kits come with plug in transformer making it easy to plug into machine service plug. For those that are electrically inclined, led lights can be wired into speaker power sources of 12+ and 12 – on any machine. Speaker circuit on all machines is usually 5 amps so there is more than enough power to wire in directly. We have installed direct on Elvis, Dr. Dude, Sopranos and Shrek with no problems.
